YOUR ALL-INCLUSIVE UNIVERSAL EV ENABLEMENT ADVANTAGE

Industry's only customer centric, dealer unified E2E EV enablement including consulting, sales, infrastructure, single-source financing, support and service.

Hino dealer network delivered solutions enabled and supported by the strategic partnership of Hino Trucks, ChargePoint, EnTech, and Mitsubishi HC Capital America.

Consulting services for fleet EV transitioning, charging solutions, EV infrastructure, end-to-end [E2E] financing, and operations support.

OEM universal ChargePoint charging solutions including hardware, subscriptions, maintenance plans, 24/7 customer support and brand customizable station faceplates and video display.

EnTech provided site evaluations and engineering, infrastructure solutions, 1-year warrantied construction, installation, grants application support, and technical service.

Simplified E2E financing with Mitsubishi HC Capital America including Hino Trucks' EVs, ChargePoint and EnTech. Special 6-month deferment option available for charging and infrastructure solutions.

Maximized station uptime with ChargePoint proactive remote health monitoring.

Local field service provided by ChargePoint certified technicians [participating Hino dealers].

Hino Trucks battery electric commercial vehicle lineup [2024 availability].
